

REMARKS AND ARGUMENTS

Claims 1, 3-8 and 10 are pending in the present application, of which claims 1 and 6 are independent. Claims 1, 4, 6 and 8 have been amended. Support for the amendments is found in the specification at page 4, lines 5-11.

Independent claims 1 and 6 specify that the aqueous composition contains 0.2-5% of a nonionic surfactant. Claims 4, 5, 8 and 10 further limit the nonionic surfactant to two specific types of nonionic surfactant. The references of record in this case do not teach the combination of limitations recited in the present claims.

Applicants believe that the claims as amended herein are patentable. However, if the Examiner has any further objections to the application, Applicants respectfully request that the Examiner contact Applicants' undersigned attorney by telephone at (215) 592-2566 to discuss the remaining issues.

Respectfully submitted,

/KENNETH CRIMALDI/
